ESSENTIAL

HotSpot1 LED Emergency Lighting Kits

- Quick plug-n-play room-side installation
- Revolutionary design for extreme versatility
- UNV and many battery options for superior adaptability
- High efficiency, high lumen output LEDs for cost effectiveness

Fulham's HotSpot1 kits provide easy-to-install emergency LED lighting for common troffer installations, including T5 and T8 LED tube retrofits. They are UL Classified for field or factory installation, with a range of battery and module options to fit any situation. Each kit includes a HotSpot1 emergency LED driver, battery pack, LED module, required hardware, the necessary UL Classified label (to secure to the fixture after installation), and complete installation instructions.

HotSpot1
UL Classified Kits for Troffers

HotSpot1 kits for troffers include an emergency driver, battery, LED module, installation instructions, and all necessary hardware and labels. The kits are not electrically connected to the normal lumination source. Choose the right kit for the job according to the required lumen output, run time, and module dimensions. Contact Fulham for details.

Common Specifications			
Input Voltage	120V-277V (UNV)	**Output Short Circuit Protection**	Self Resetting PTC
Surge Protection	C62.41 (TVS)	**Recharge Time Required**	24 hours
Over Current Protection	Fuse	**Battery Type**	NiCd 3.6VDC
Input Current	0.07A	**Illumination Time**	Minimum 90 minutes
Input Power	<4W	**Output Classification**	UL 1310 / Class 2
Output Voltage	3.6V	**Ambient Temperature**	0°C - 50°C

UL Classified Kits

Model Number	Watts	Lumen Output	Estimated Run Time	Module Type	Module Dimensions (LxW)
FHSKITT03LNC	3	450	145 Mins	Linear	4.68” x 0.82”
FHSKITT03LND	3	450	200 Mins	Linear	4.68” x 0.82”
