

Photoluminescent Exit Signs

- No electricity required- stores and re-emits ambient light
- No batteries or lamps to fail, no periodic testing required
- Simple installation using standard mounting brackets
- Non-radioactive (Tritium-free)
- Wide range of styles, viewing distances, and colors
- Made in the U.S.A.

FREELITE Photoluminescent Emergency Exit Signs are the easy-to-install, low maintenance alternative to traditional exit signs. FREELITE signs absorb the normal ambient light in a building, then their self-illuminating materials shine bright when the lights go out. They eliminate costly testing and maintenance, install quickly, and have no electrical circuits to fail in emergencies. They are LEED points qualified and Tritium-free (non-radioactive).
