

Rapid ROI with Fulham T8 & T5 Electronic Ballasts

Upgrade inefficient T12 ballasts and lamps to new, energy-efficient T8 or T5 Fulham electronic ballasts and lamps for significant savings. In addition to lower energy costs and less maintenance, utility company rebates may also be available in your area.

Why switch now?

T12 technology is inefficient and being phased out by law. The U.S. Department of Energy already prohibited manufacture of T12 magnetic ballasts for replacement purposes in 2010, and recent legislation phases out most T12 lamp technology starting in mid-2012.

Let Fulham help you:

- Save energy dollars
- Improve color rendering
- Get more lumens per watt
- Reduce noise and improve operating efficiencies
- Save on HVAC costs due to lower operating temperatures

FULHAM
Lighting... Global. Intelligent. Sustainable.

12705 S. Van Ness Avenue, Hawthorne, CA 90250 • Tel: (323) 599-5000 • Fax: (323) 754-9060 • order@fulham.com • www.fulham.com
