

GET BACK IN THE SADDLE WITH **FULHAM**

As facilities cautiously re-open with an understandable focus on UV lighting for germicidal applications, you may notice heightened demand for replacement UV ballasts to get luminaires back up and running. Fulham SunHorse Fluorescent Ballasts are the answer!

What makes Fulham UV ballasts so great? They provide a low-maintenance, energy-efficient answer for germicidal ultraviolet lighting applications, including water purification, air purification and surface disinfection.

- Up to 6 lamps can be run off 1 ballast
- Dimming and Non-dimming options
- Lower maintenance through extended lamp life
- Compatible with a wide range of lamp types and combinations as listed here:
