## Fulham Introduces 350 ECO Series LED DC Modules for Low-Power, Linear Lighting Applications

New Line of DC Modules Available in Multiple Sizes, Wattages, and Color Temperatures for Versatile Lighting Applications and Luminaire Design

HAWTHORNE, Calif. – December 6, 2016 – Fulham Co., Inc., a leading supplier of lighting components and electronics for commercial and specialty applications, has announced the release of a new family of ThoroLED 350 ECO Series LED DC Modules, a line of linear LEDs available in a variety of lengths and wattages to fit a wide range of luminaires.

The new DC modules are built to operate at 350mA, up to a maximum current of 400mA. The constant current design delivers extremely high efficacy in a variety of color temperatures and CRI levels, making them ideal for various applications including linear luminaires, ceiling and wall sconces, hospital bed and reading luminaires, hallways, step lights, vanity lights, and more, including variable lighting with dimming LED drivers. The linear 350 ECO Series modules also are compatible with Fulham's constant current drivers and emergency LED systems.

“We have developed our new 350mA ECO Series as a cost-effective LED DC module for Fulham drivers,” said Edwin Reyes, Light Source Product Director of Fulham. “These new units are compatible with our HotSpot2 and HotSpot Plus All-in-One emergency drivers, and they give Fulham OEM customers more versatility by offering a range of lengths and wattages to fit various luminaire designs.”

The ThoroLED 350 ECO Series DC Modules are available in five sizes and five wattage levels – 17 inches at 12.6W and 8.4W, 11 inches at 8.4W, 5 inches at 8.4W and 6.3W, and 1.5 inches at 4.2W and 2.1W.

All the 350 ECO Series LED DC Modules come with Fulham’s five-year warranty.
